

# SHAYA

STAY CURIOUS. LOOK CLOSER.

## SIGNAL COLOR

BRAND GUIDELINES / VERSION 1.0

# Curiosity made visible

## STAY CURIOUS. LOOK CLOSER.

Signal Color turns careful observation into a bright, direct visual language. It feels confident without hiding the details.

### CURIOUS

Ask one more useful question.

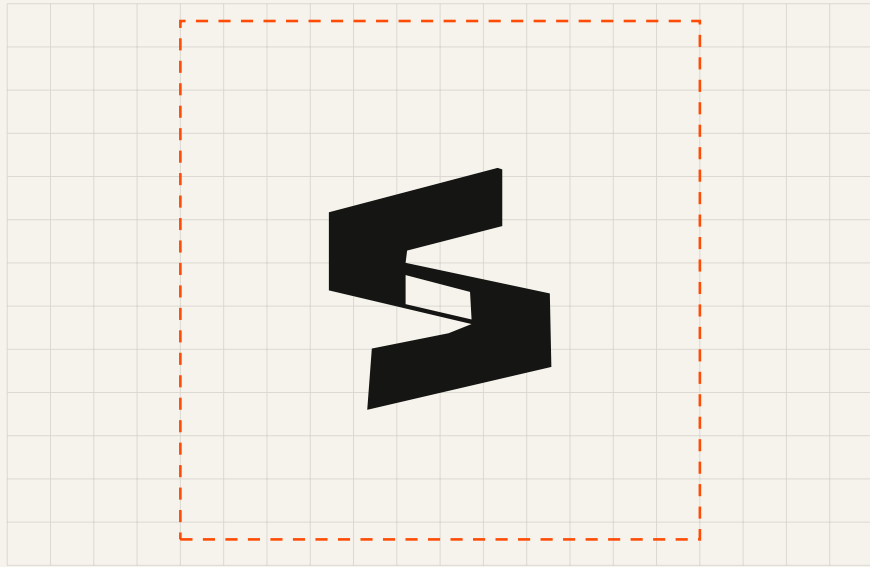

### PRECISE

Keep claims clear and testable.

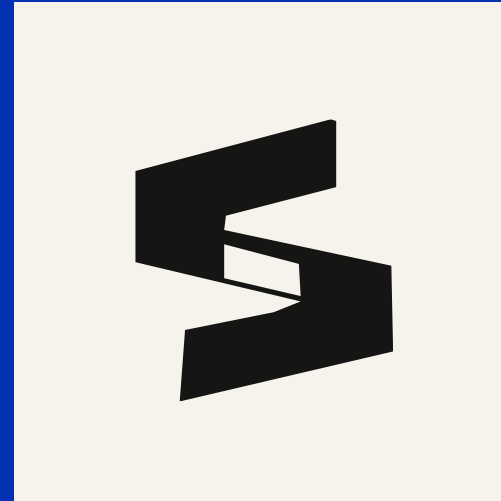

### OPTIMISTIC

Use color to invite attention.

# Keep the folded S sharp and simple

CLEAR SPACE = ONE QUARTER OF THE MARK WIDTH

LIGHT FIELD

## DO

Use the supplied mark. Keep the original proportions. Leave clear space.

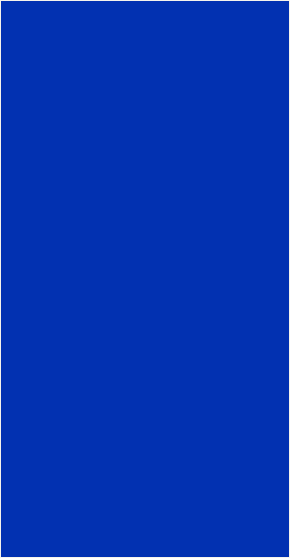

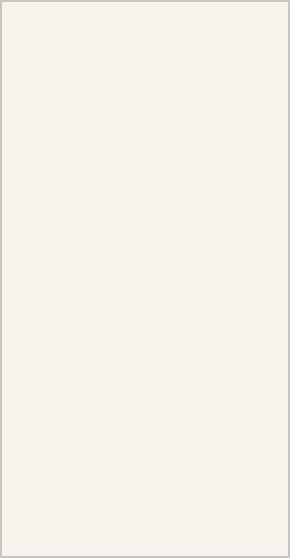

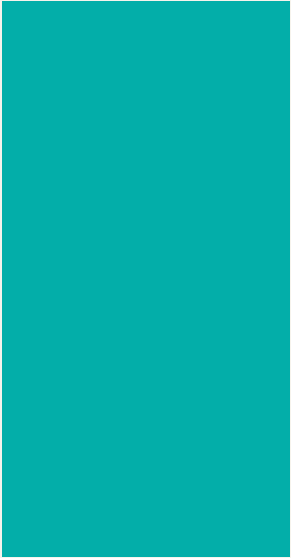

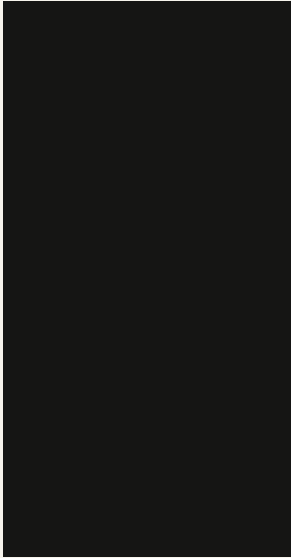

DARK FIELD

## DO NOT

Stretch, rotate, outline, add effects, or rebuild the geometry.

# One bold field, then controlled signals

|                                                                                   |                                                                                   |                                                                                    |                                                                                     |                                                                                     |                                                                                     |                                                                                     |

| #0231B1                                                                           | #F6F3EC                                                                           | #03AEA9                                                                            | #FE4B05                                                                             | #FCAB05                                                                             | #3B1F73                                                                             | #151514                                                                             |
| 45%                                                                               | 25%                                                                               | 10%                                                                                | 8%                                                                                  | 6%                                                                                  | 4%                                                                                  | 2%                                                                                  |

Use Cobalt or Warm White as the main field. Use one or two signal colors per composition. Reserve Ink for text and high-contrast details.

Condensed display type carries the signal

SHAYA

DISPLAY / IMPACT / ALL CAPS

STAY CURIOUS. LOOK CLOSER.

TAGLINE AND LABELS / ARIAL NARROW BOLD

## BODY

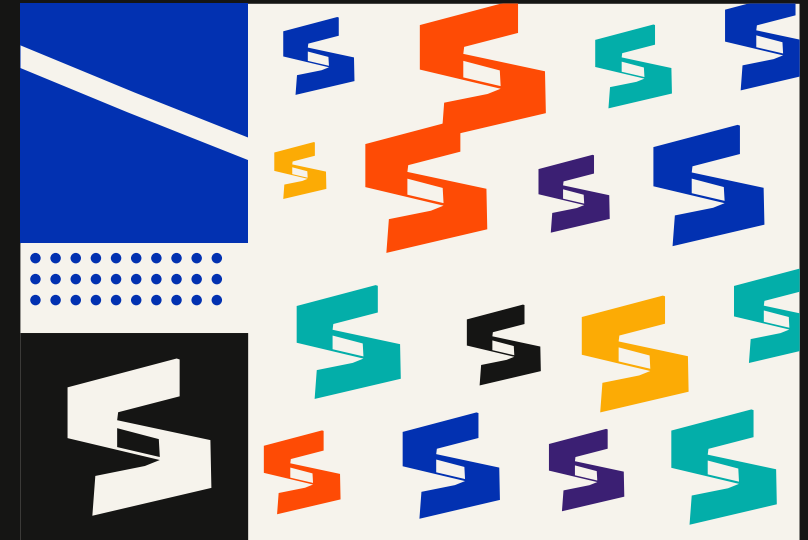

Use Arial for readable explanations. Keep sentences short. Keep one clear idea in each paragraph.

## MONO

### VERIFY / TEST / SHIP

Use Cascadia Mono for code, file paths, values, and technical labels.

# Build worlds from flat geometry and small clues

## FLAT GEOMETRY

Use crisp planes, bold perspective, and simple silhouettes.

## PRINT GRAIN

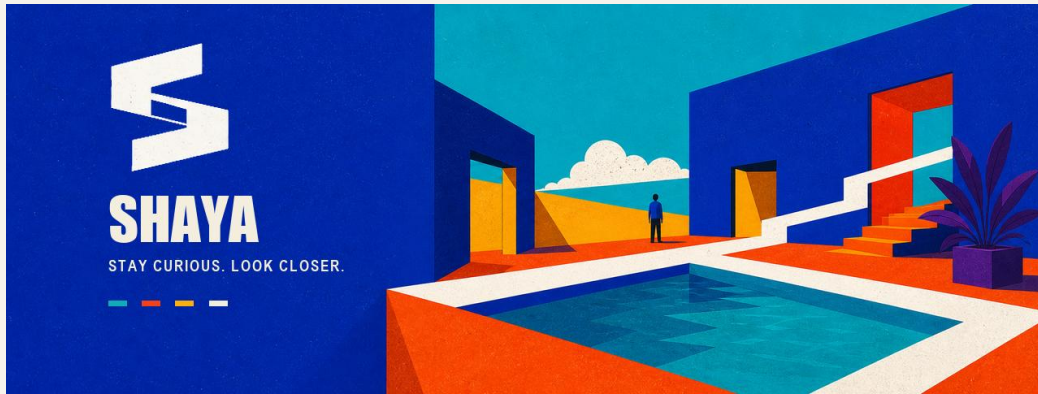

Add subtle paper or screen-print texture. Keep edges readable.

## SMALL CLUES

Reward a second look with one quiet person, animal, or trace.

# Move slowly enough to reveal the detail

01 / ESTABLISH

02 / LOOK CLOSER

## HOLD

Let the full scene read.

## EASE IN

Use cubic-bezier(0.65, 0, 0.35, 1).

## STAGGER

Bring ants in one by one with small timing changes.

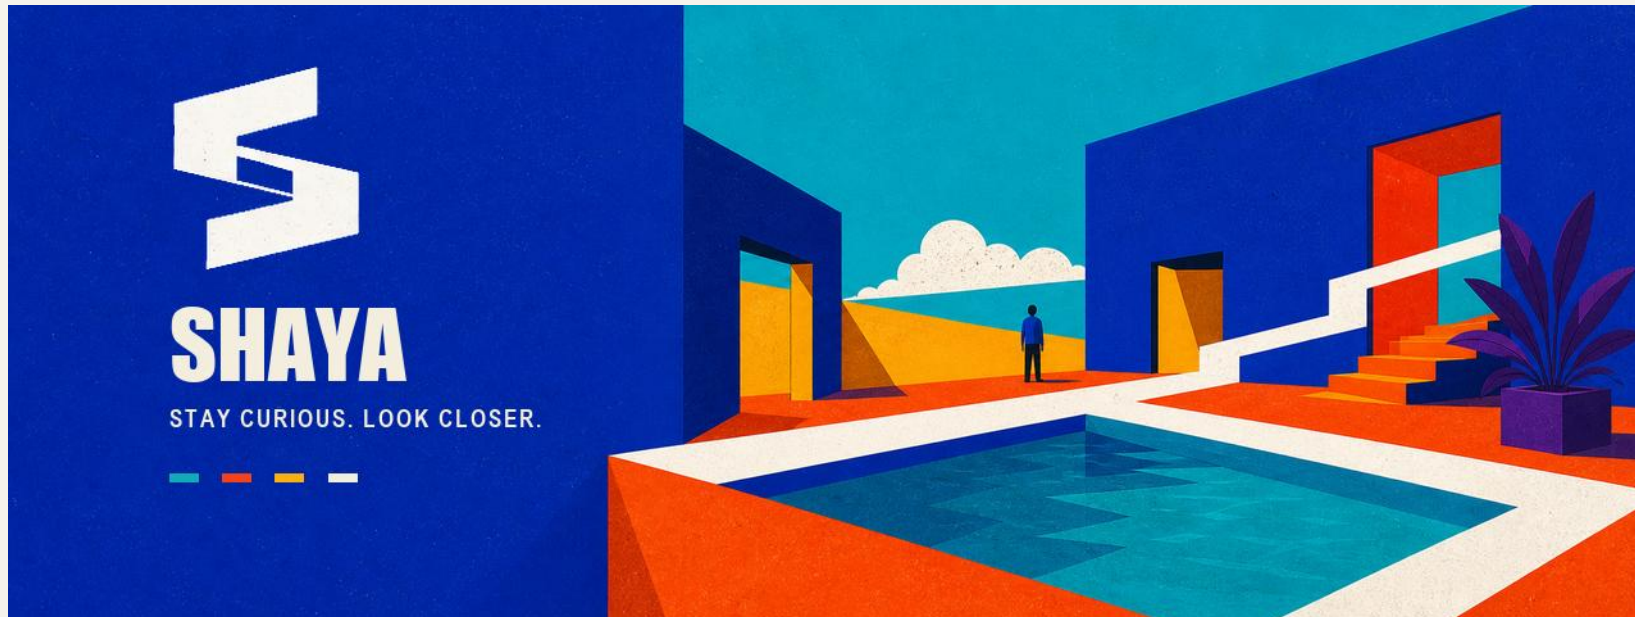

## CLEAR

Move every ant off screen before the camera returns.

**All moving details stay attached to a real surface. Ants do not cross the water.**

# Keep the profile readable before it becomes decorative

## PROFILE README

1280 x 480

Keep SHAYA and the tagline inside the left identity rail. Do not place foliage, motion, or interface labels over the words.

**SHAYA**

STAY CURIOUS. LOOK CLOSER.

# Look closer before you claim certainty.

The visual system is bright. The written voice stays careful, direct, and evidence-first.

## VERIFY

Test the public result.

## LIMIT

State what is not confirmed.

## WRITE

Use short, direct sentences.

## REVIEW

Check the details at final size.
